NorCal SETAC members, the Board of Directors and Annual Meeting Committee would like to invite you to attend the 2010 Annual Meeting. The meeting theme will bring three experts, Dr. Christian Daughton, Dr. Daniel Schlenk and Dr. David Epel together in the plenary session to present the complex environmental responses to contaminants we have begun to notice in the water, air and soil of Northern California.

We are soliciting short course ideas – what would you like to learn and what would you like to teach? Contact Katie Henry (katie.henry@tetrattech.com) immediately for further information, since time is short and funds are limited.

On-line registration will begin in early February 2010. Abstracts for platform and poster sessions are due on March 26, 2010. The 2010 "call for abstracts" and instructions for submitting them will be sent to you by email and posted on the web site (www.norcalsetac.org). The format will be similar to the 2009 template.

We look forward to seeing you at the 2010 NorCal SETAC Annual Meeting.
